

ANN SACKS
IS PARTICULAR
ABOUT TILE
FROM START
TO FINISH.

Naturally, this makes us slightly fanatic about how our tile is installed. While it's easy to overlook the importance of grout, we see it as vital. Like the frame around a painting in a gallery: Great grout should enhance the setting of your tile without calling attention to itself.

Here we offer you two patented urethane grouts — Glass and Quartz — created by Bostik to complement your tile's color and material for a seamless finish. Both are easy to use, quick to install and require no extra work to maintain.

Between the two, you'll find a perfect look for any ANN SACKS tile.
