## **ARCILLA, THE LATEST IN CERAMIC DESIGN BY ANN SACKS**

**PORTLAND**, Ore. (June 1, 2017) – ANN SACKS expands its ceramic portfolio with the unveiling of Arcilla, a handmade tile crafted in Spain. By its very design, Arcilla updates the standard subway tile currently seen in the marketplace with an undulating surface and fresh and of the moment color palette. Designed at a price point to make it an exceptional choice for large scale commercial and residential installations, Arcilla is also an inventoried collection to ensure timely turnaround no matter the project size.

The double-fired glazed ceramic tile is suitable for indoor wall applications and shower walls and can stand up to high temperatures, such as behind ranges and when used in a fireplace surround. Arcilla is not suggested for submerged areas or used in flooring applications due to its glossy surface.

Arcilla is offered in a 5"x5" square field tile, 3"x12" and 5"x15" rectangle field tiles, and 1"x5", 1"x12" and 1"x15.5" surface bullnose tiles. All are available in color choices of Blanco Gloss, Blanco Matte, Nublado Gloss, Azul Gloss and Gris Gloss with the exception of the 5"x15.5" field tile size, which comes in either Blanco Gloss or Blanco Matte.
