**ANN SACKS VERTICE COLLECTION
OFFERING OPTIONS THAT POP WITH PERSONALITY AND CHARACTER**

PORTLAND, Ore. (October 1, 2017) – ANN SACKS launched Vertice, a new flooring collection from Spain that boasts four geometric designs and endless options. This through body glazed porcelain tile has a natural matte finish and the durable nature and easy maintenance required to hold up to the highest traffic areas.

Vertice offers four designs, the 4”x20” Chevron, the 9”x8” Hexa, the 9”x4” Trapezium, and the 9”x8” Triangle in colorways of Ash Grey Matte, Graphite Matte and Ice White Matte. The collection’s modular designs can be mixed and matched to create numerous patterns and when using contrasting grout, take floors to a new level of creativity.

The Vertice collection is sold by the box. The Chevron, Hexa and Triangle come 10 tiles per box while the Trapezium comes 20 per box. There is little variation in color to evoke a seamless field broken only by the grout to define and accentuate the floor pattern. It is suitable for all indoor flooring and can also be used in wall applications. Also ideal for the outdoors – dependent upon method of installation – as Vertice is not affected by freeze/thaw conditions.
