**ANN SACKS EXPANDS ITS SAVOY DIMENSIONAL PORCELAIN TILES**

**PORTLAND**, Ore. (September 19, 2016) – ANN SACKS, a premier manufacturer and distributor of tile, stone and plumbing products, has expanded its Savoy collection. Its flexible nature and modest price, featuring compelling, unique Japanese glazes, has made Savoy one of the most successful collections at ANN SACKS. With its 21 percent recycled content, it also builds upon the company’s increasing eco-friendly tile and stone categories.

The latest design to join this impressive collection is Anna Bevel. Beginning with classic 3”x3” and 3”x6” tiles, the beveled edges are then pinched creating an intriguing visual presentation when laid up. The porcelain is dry pressed and very dense, its surface when fired, allowing the glaze to break over the edges producing variance of shade and remarkable depth. Anna Bevel is available in the Savoy colors of Chalk, Cottonwood, Paperwhite, Ricepaper, Bronze, Cornflower Blue and Graphite.

Although primarily developed for indoor applications, the porcelain based tiles can be used for exterior wall applications. Its comprehensive selection and pricing also make it a smart choice for walls and ceilings.
