ANN SACKS® INTRODUCES DISTINCTIVE BLUE DOLOMITE

PORTLAND, Ore. (February 4, 2014) – In keeping with its reputation for bringing new, fresh materials to the marketplace, ANN SACKS introduces Blue Dolomite, an intricately veined stone similar to marble, but with a rare cool blue-gray coloration.

Because of its high concentration of minerals, dolomite is one of the few sedentary rocks that undergoes significant change as it is pressed by into layers over millions of years, and this transformational property can lead to unusual color configurations such as this blue-gray variety. Calcium deposits run through the veining, creating streaks of pure white that contrast beautifully with the bluish tint of the stone. Blue Dolomite is a rare and lovely stone that provides a depth of color and character that is both singular and striking.

Available in three sizes: 16" x 16", 8" x 16" and 1" x 2" mosaic, Blue Dolomite is ideal for any vertical or horizontal applications. Blue Dolomite is perfect for flooring, in bathrooms and kitchens, and can be used outdoors depending on the climate and method of installation.

Founded in 1981, ANN SACKS has built its reputation with inspiring designs in tile, stone, plumbing, lighting and accessories. Based in Portland, Ore., the company is a division of the Kohler Co. Interiors Group, a wholly owned subsidiary of Kohler Co. Ann Sacks Tile and Stone, Inc., along with Kallista plumbing and Robern mirrored cabinetry and vanities are part of the Kohler Interiors Decorative Products sector. Under its Furniture sector resides Baker Knapp & Tubbs, Inc., Baker furniture, Baker Knapp & Tubbs Showrooms and Baker Stores, McGuire Furniture Company, and Mark David hospitality furniture.
