MODERN, UPSCALE WOOD PANELING SYSTEM PIONEERED BY ANN SACKS®

PORTLAND, Ore. (February 4, 2014) – This is not your father’s wood paneling. Network, a new wood tile offering from ANN SACKS, is a series of glossy timber panels that interlock in raised and recessed patterns.

An ecologically sound choice, Network is composed of the scraps left behind in a Mexican door factory. These discarded pieces have been reimagined and refigured as glossy wooden ribbons that have been expertly honed to fit together in gently undulating wood configurations. The panels are 7-3/8”x31 ¼” and each one has been burnished to a glossy finish to showcase the natural character of the wood. Matching 1”x35”x3/4” trim can be specified to add that professional touch to each installation.

Network is available in two different woods: Walnut and White Oak. The White Oak comes in four finish options: Two Percent Milk, Aged Wash, Burnt Sepia, and Champagne Bath. The Walnut Palette is composed of five finishes: Aged Wash, Burnt Sepia, Champagne Bath, Chocolate Fondue and Thunderstorm. Network offers seven designs: Structure Kubik, Structure Sequence, Baufort Ocean, Baufort River, Baufort Mountains, Baufort Meadows, and Offset Curve (*shown in Chocolate Fondue*). Each one is a composition of natural components that offer texture, sophistication, and unusual beauty.

Founded in 1981, ANN SACKS has built its reputation with inspiring designs in tile, stone, plumbing, lighting and accessories. Based in Portland, Ore., the company is a division of the Kohler Co. Interiors Group, a wholly owned subsidiary of Kohler Co., which also includes Kallista plumbing, Baker Knapp & Tubbs, Inc., Baker furniture, Baker Knapp & Tubbs Showrooms and Baker Stores, McGuire Furniture Company, and Mark David hospitality furniture.
