

Petrified Wood

The term petrification comes from the Greek petro, meaning stone. Each piece of our Petrified Wood tiles displays the unique knots and rings that characterized an individual tree; no two are the same and the end result is a lustrous, exotic look that is incredibly durable and rare.

RECOMMENDED USE

- Suitable for indoor wall, counter and flooring applications
- Not recommended for outdoor use. UV rays can discolor the epoxy.
- Not recommended for areas exposed to high heat such as fireplaces or cook-tops.
- Please see ANN SACKS slip resistance and wet flooring application statement to determine usage in a wet area

Residential Floor

High-Traffic

Wall

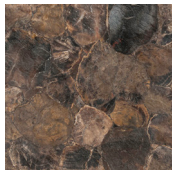

INSTALLATION AND MAINTENANCE

- Please reference the TCNA handbook for installation of glass tile, ceramic tile and stone tile (www.tcnatile.com)
- A grout joint of 1/16" or greater is recommended
- Can be grouted or butt jointed. If used in wet areas, material should be grouted
- Install per industry standards for natural stone if on stone backing, or industry standards for ceramic if on ceramic backing
- Product is recommended to be sealed.
- Periodic cleaning is recommended using products formulated for natural stone
- See Stone Care & Cleaning Guide.
