

# Profile

Profile, manufactured exclusively for ANN SACKS by Oceanside Glasstile, offers handcrafted glass tile with a luminous quality and beautiful surface texture. Profile is made from silica sand, an abundant natural resource, with most colors also containing recycled content. Profile glass tile is available in a rich palette of warm earth tones, soothing blues and greens, dramatic metallics and a vibrant red.

## RECOMMENDED USE

- Suitable for all indoor wall and medium duty flooring applications
- Outdoor use subject to method of installation
- Suitable for use in wet areas such as showers, pools or fountains

wet area

floor

outdoor

wall

## INSTALLATION AND MAINTENANCE

- Please reference the TCNA handbook for installation of glass tile ([www.tcnatile.com](http://www.tcnatile.com))
- To avoid cracking, always use a crack suppression membrane and make cuts using proper glass cutting equipment
- Due to transparent quality, use white thinset adhesive
- Use sanded grout
- Clean with warm soapy water or PH neutral glass cleaner and soft cloth

Profile glass is made with recycled content, in addition to silica sand. Depending on the color, the tiles contain up to 30% pre-consumer recycled content and up to 65% post-consumer recycled bottle glass. Both sunset and night sky contain over 72% post-consumer curbside recycled bottle glass for total recycled content of 86%.

## COLLECTION

|                  |   |
