INSTALLATION AND MAINTENANCE

- Install per TCNA industry standards for glass
- Always inspect material prior to installation—installed material cannot be accepted for return or credit
- Always lay out material prior to installation to properly blend and balance color
- To avoid cracking, always use a crack suppression membrane and make cuts using proper glass-cutting equipment
- Due to transparent quality, use white thinset adhesive
- Seal matte finish with a penetrating sealer before and after grouting
- Use non-sanded grout for gloss finish to avoid scratching
- Clean with warm soapy water or ph neutral-glass cleaner and soft cloth
