APEX

Introducing
APEX

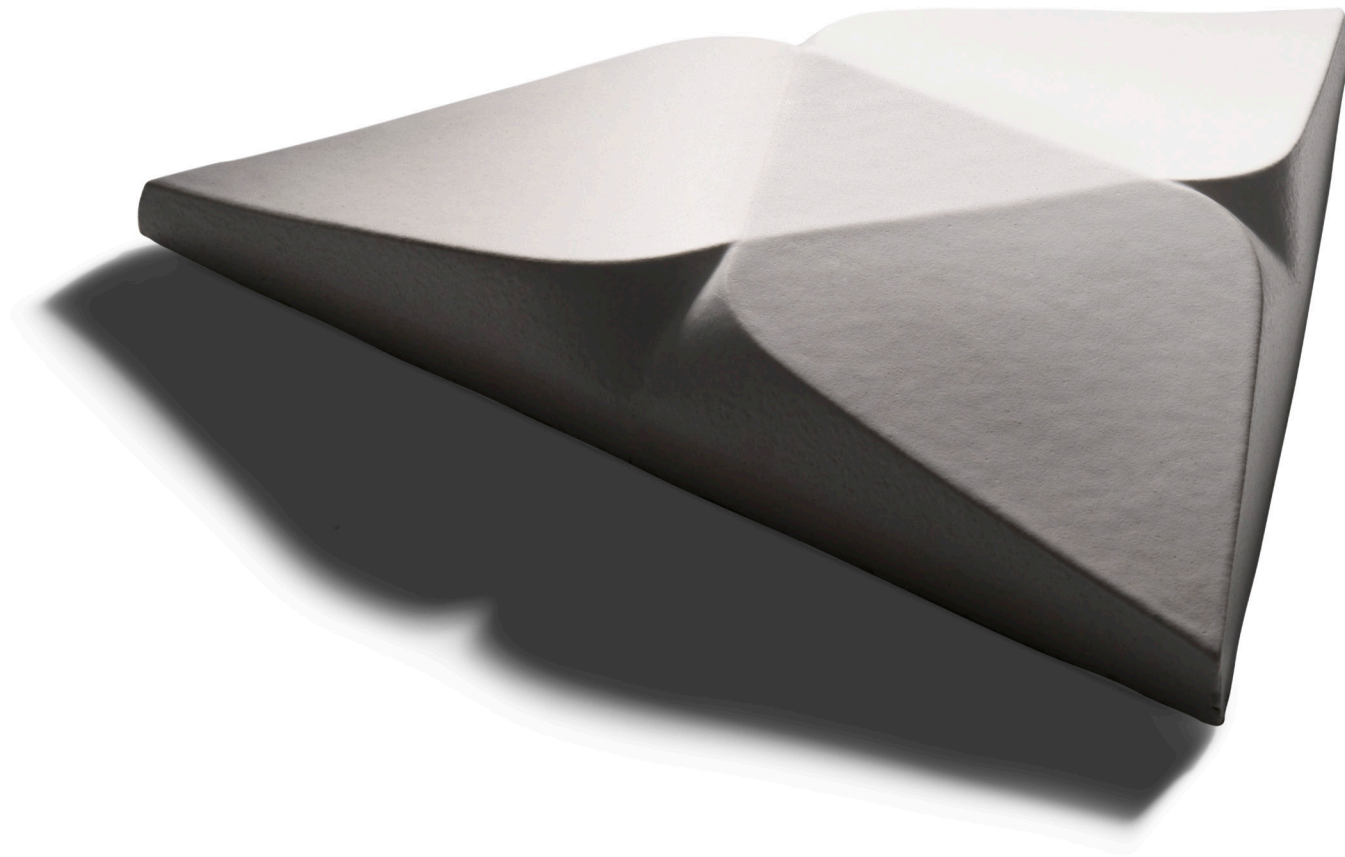

Over 30 years ago, Ann Sacks opened its Portland, Oregon factory, realizing a vision to produce the finest handcrafted tile showcasing modern, innovative designs. This vision continues to be celebrated with the launch of our newest MADE collection, Apex.

With designs named for some of the most magnificent peaks and beautiful flora in the Pacific Northwest, Apex creates a sculptural statement with its grand, three-dimensional forms. This collection of five geometric stoneware shapes is offered in fourteen artisan glazes in both matte and gloss finishes. When installed, light and shadows move across the tile surface creating a captivating visual effect.

RAINIER

Named after the stunning peaks of Mount Rainier, the unique dimensional tile features a rounded, pinched edge detail which finishes in a point at each corner. As the glaze breaks across the surface and crevices, it reveals a captivating design when the repeated patterns are installed together.

PAULINA

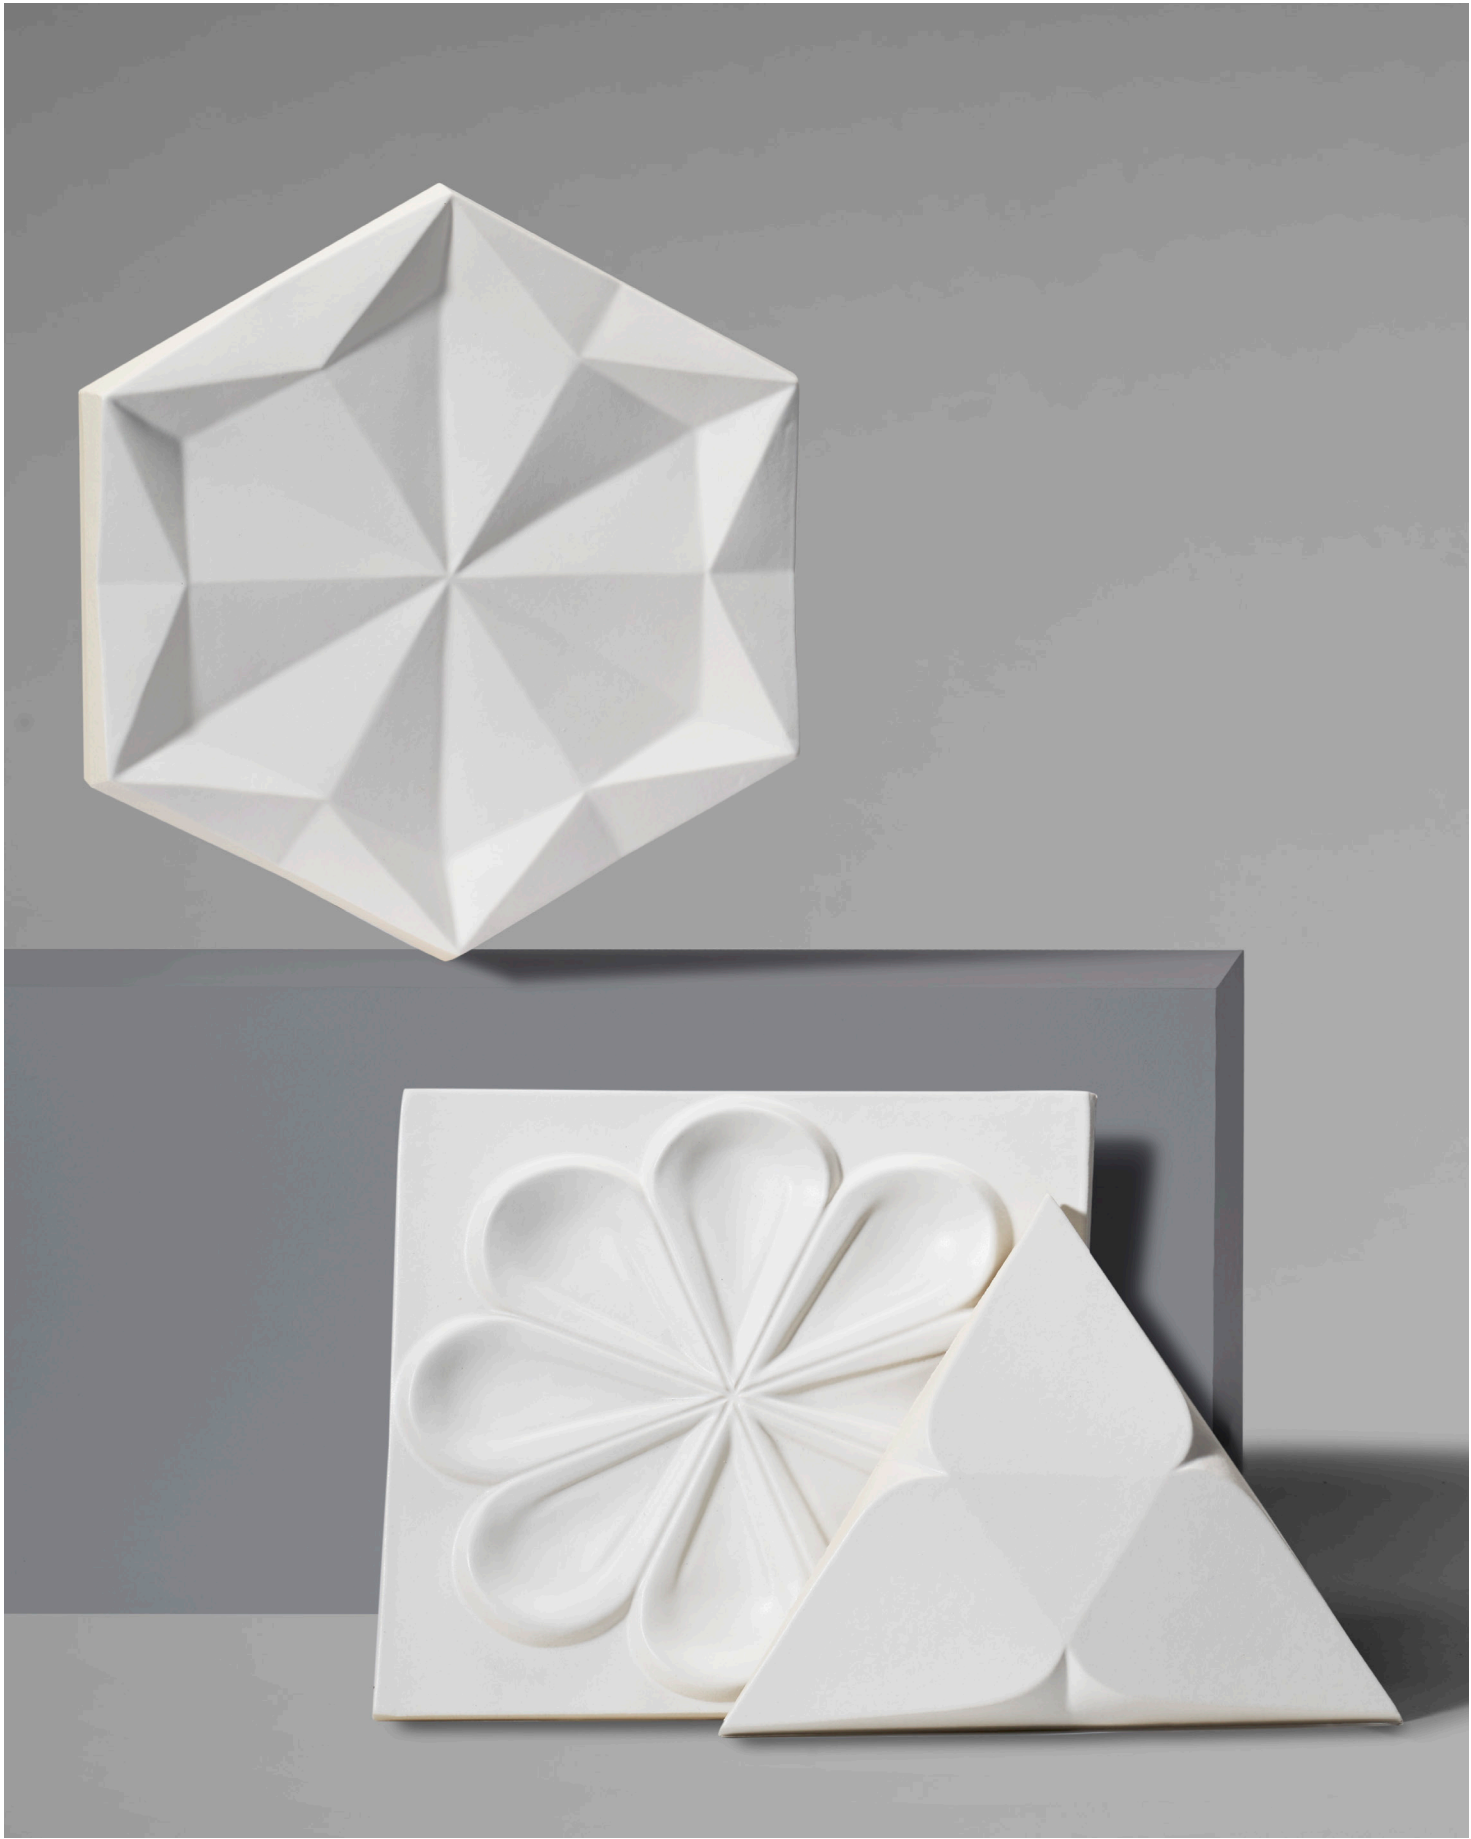

The diamond form of the Paulina design has five angled planes that create an intriguing interplay of light and shadow. The depth of the modern angular design creates a dramatic, undulating effect in wall installations.

CLOCKWISE FROM UPPER LEFT: MADE by ANN SACKS Apex Shasta, Apex Rainier and Apex Trillium in White Shimmer Matte.

“Dimensional tiles
create a beautiful
sculptural quality
that can transform
an ordinary wall
into a piece of art.”

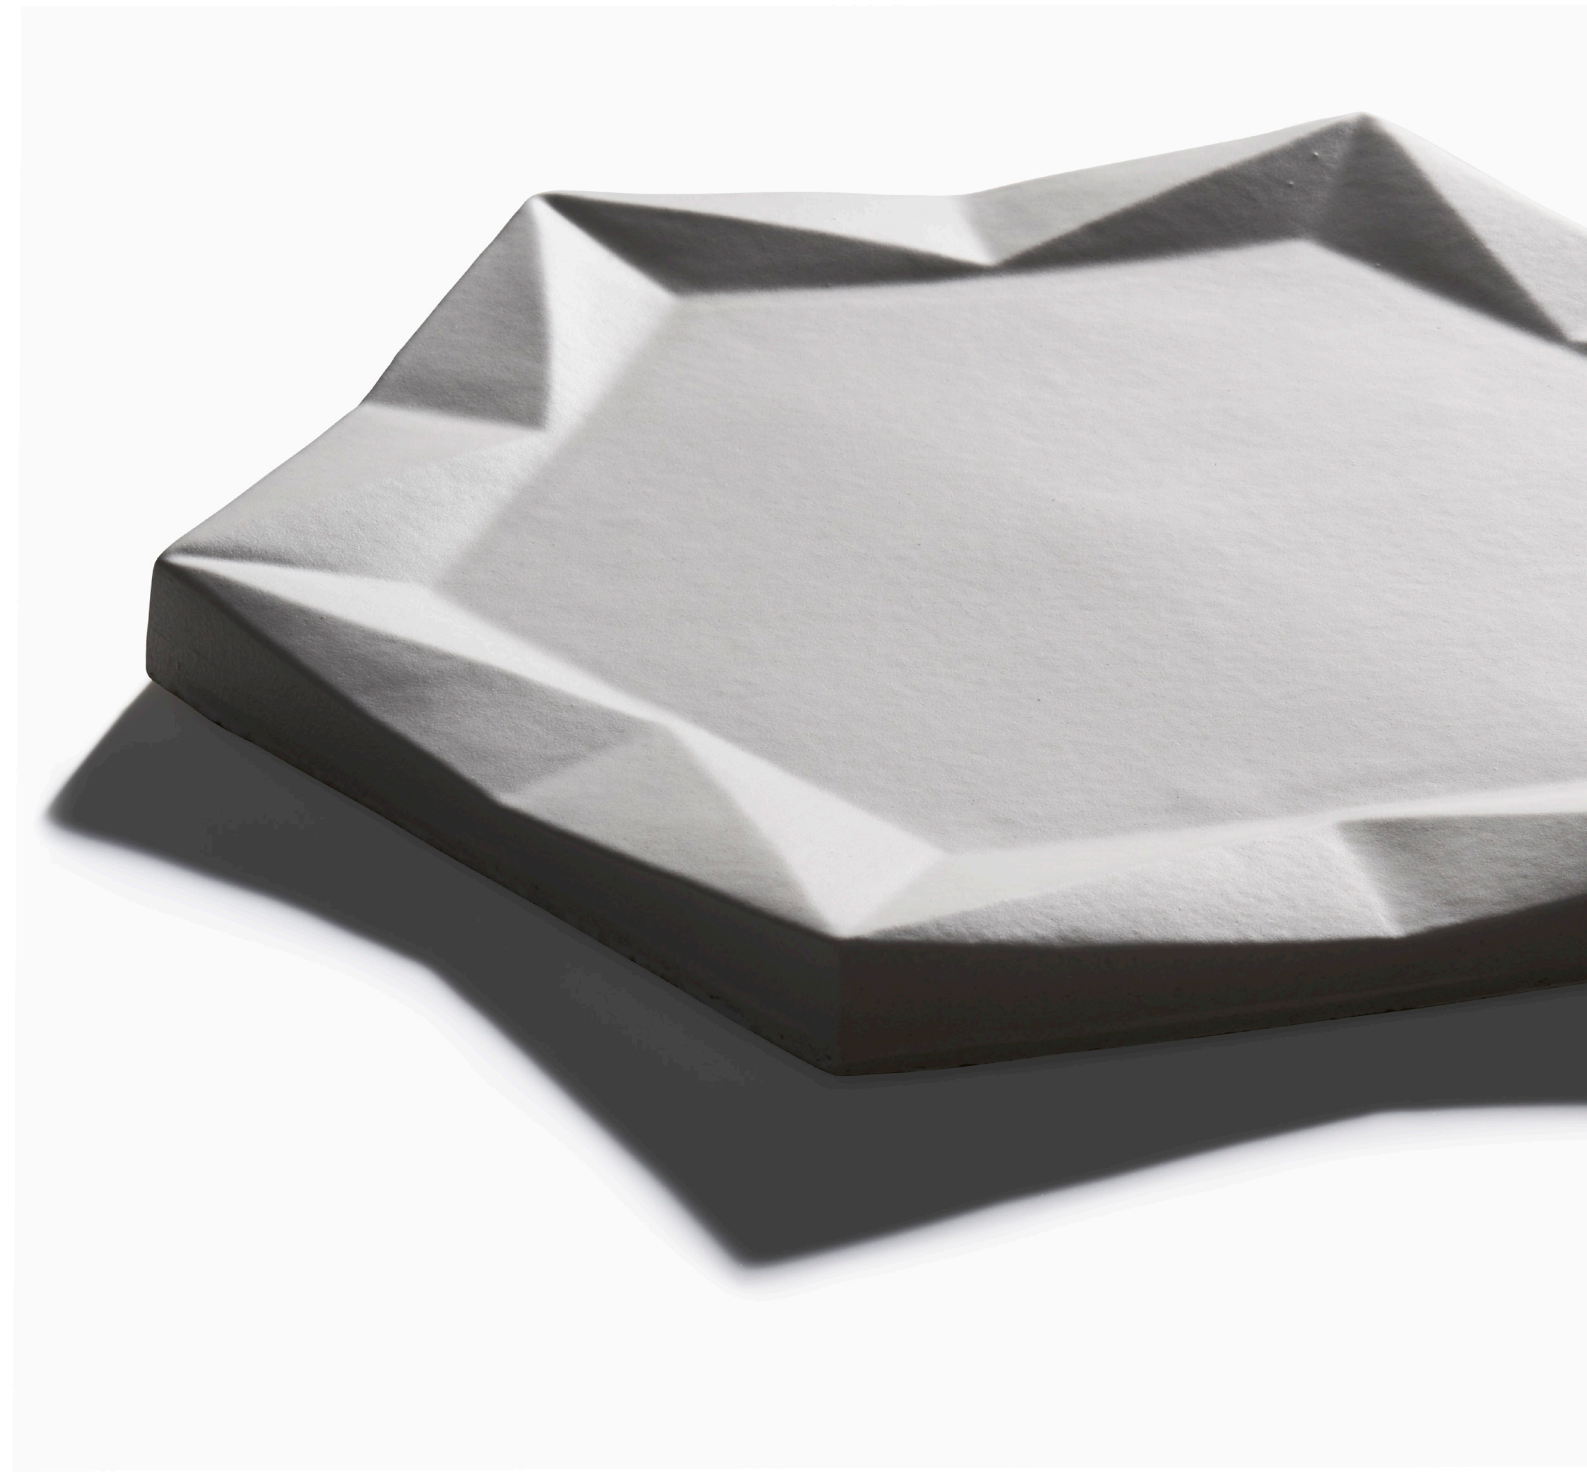

- DEEDEE GUNDBERG, ANN SACKS DIRECTOR
OF PRODUCT DEVELOPMENT & DESIGN

TOP TO BOTTOM: MADE by ANN SACKS Apex Sierra and Apex Paulina in White Shimmer Matte.

SHASTA & SIERRA

The crisp, geometric edges of the Shasta and Sierra designs radiate out, creating an eye-catching focal point in these hexagonal tiles. These formats may be used in combination or on their own to create countless design possibilities.

TRILLIUM

The Trillium format is a playful interpretation of 1960's Mod design.
The large floral pattern creates a bold, impactful statement on
feature walls in residential or commercial spaces.
